The patient in the centre

One philosophy - the patient in the centre

Our team of board certified oral- and maxillofacial surgeons and other associated medical specialists are fully committed to provide the best and most advanced medical care for our patients. Each member of the team abides to the highest standards of clinical practice, whilst including integrity, empathy and candour.

In order to ensure that our patients receive the most technologically advanced and environmentally sensitive setting possible, all our locations are equipped with state-of-the-art facilities, enabling cutting edge assessment and care.

The Swiss Maxillofacial Associates strive to be recognized as a unique team in the dental and medical community, ensuring excellence in care and service in a warm, friendly and comfortable atmosphere. Our patients are the heart of our practice and our “raison d’être”.

At the core of our philosophy lies the profound belief that all patients should be treated with respect, dignity, and compassion and deserve the best possible service.
